SUBJECT: Commendation for Contribution to Centralized Heating Delegation

This memo is just a short word of thanks for the fine briefing job 25X1A9a did for the Centralized Heating Delegation. 25X1A9a tells me that he had quite obviously done a tremendous amount of research, presented his material well, and provided the delegation with an unclassified report which should be of great usefulness. I appreciate very much his participation in this briefing and I believe the delegation did too.

I am enclosing a copy of this memo, so that you may include it in 25X1A9a performance rating file.

Enclosure:

Copy of memo.
